**Mobile Vertical Stacker Delivery**  
with pressing and integrated marking  
device ME

Vertical stacker delivery with pressing for one- or multiple-up production, depending on working width. Round belts at infeed for splitting of multiple streams before the press. Marking device for lateral stepped movements. Integrated pressing with pre- and main pressing rollers, adjustable falling height of pressing to collating table. Large loading capacity on the pile table, ergonomically favourable loading height, infinitely adjustable.
